# THE BRANDON WEEKLY MAIL.

## Wendell Phillips' Report.

D. Wm. H. F. Ross, of Philadelphia, who was a relative and intimate friend of Mr. Phillips, relates the following incident of the times when slavery was the bone of contention in this country:

"Several clergymen boarded a street car in Boston one day, and one of them, hearing it intimated that Wendell Phillips was in the car, got up and asked the conductor to point him out. The conductor did so, and the minister, going up to the orator, said: 'You are Mr. Phillips, I am told.' 'Yes, sir, I should like to speak to you about something, and I trust, sir, you will not be offended.'

"There was no fear of it,' was the sturdy answer, and then the minister began to ask Mr. Phillips earnestly why he persisted in stirring up such an unfriendly agitation in one part of the country about an evil that existed in another part. Why?' said the clergyman, 'do you not go south and kick up dust, and leave the north in peace?'

Mr. Phillips was not the least ruffled, and answered smilingly: 'You, sir, I presume, are a minister of the gospel?'

'I am, sir,' said the clergyman. 'And your calling is to save souls from hell?'

'Exactly, sir.'

'Well, then, why don't you go there?'

## CORNWALLIS.

A special meeting of the Council was held in Messrs. Pondrier & Brownie's office, on the 19th February. Present: Reeve Whitehead, Coun. Baker, McKelvie and Cardiff.

The Reeve explained that the meeting was held for the purpose of laying before the Council the steps taken by the council in reference to the debt owing the Merchants' Bank, by the late municipality of Brandon.

McKelvie—Baker—That a by-law be framed empowering the reeve and clerk to sign and attach seal to a note at sixty days with municipalities Daly, Elton, Oakland and Whitehead for the sum of sixty-six hundred and thirty-four dollars and seventy-one cents, to liquidate the debt on the municipalities which formerly formed the municipality of Brandon. Carried.

A by-law was accordingly introduced and passed.

Cardiff—Baker—That C. A. Durand be appointed solicitor for this municipality, and that a by-law be passed at next meeting confirming the same, and that the clerk be authorized to see Mr. Durand and have by-law drafted for proper observance of the Sabbath. Carried.

Baker—Cardiff—That D. McKelvie interview J. McKelvie with regard to obtaining a loan of five hundred dollars to meet current expenses and report at next meeting. Carried.

Mr. McKelvie gave notice that he would at next meeting introduce a by-law to provide for the proper observance of the Sabbath.

The council then adjourned.

GEORGE H. HALE, Clerk

## FOREIGN.

Four boys, 10 to 17 years of age, while hunting south of Omaha, last Wednesday, exploded a powder house containing over six tons of powder. All four were blown to atoms. The victims of the explosion were Curtis, Mansen, aged 17; Wm. Abney, 17; Wm. Mallies, 12; and John Still, 10. The magazine was owned by Steele & Johnston, and located two and a half miles south of the city. It was severely felt all over town, and the fire department was called out. Buildings half a mile from the magazine had windows broken and doors split in two. Trees were leveled and torn as if raked with grape and canister, and the branches left hanging heavy with fruit of human flesh, one head being taken from a limb 30 feet high. It was the most horrible sight ever seen in the city.

There was a terrible tragedy in Pine Creek Valley, Houston County, last Wednesday. Last summer Joseph Beech and his wife were divorced. Last Sunday Beech went to the house of his brother Lafayette, where his divorced wife was staying, she being a sister of his brother's wife, Mrs. Lafayette Beech drove him from the house with a club. Yesterday he returned when all the men were absent. His wife saw him coming and ran upstairs and locked the door. Joe pushed past his sister-in-law, broke open the door, drew a pistol, placed it at his wife's temple and fired. He then turned to his sister-in-law and bade her not dare to move on penalty of death. He dragged the corpse to the middle of the room, lay down beside it, placed the revolver to his head and fired and expired. The woman

led to the house of a neighbor. A coroner was summoned. The wall, or the room were found smeared with blood and brains, and the bodies were yet warm. Beech was sixty years old, and came from Canada five years ago. He was a blacksmith.

## SOURIS RIVER COUNTY.

The first meeting of the Souris River County Council convened there on Friday last. Present, Reeves H. Pollock, J. Downe and E. Atttridge.

On motion of J. Downe and E. Atttridge, Mr. Pollock, was appointed chairman pro tem.

On motion of Atttridge and Downe J. W. Daly was elected clerk pro tem.

Downe and Atttridge—That H. Pollock be elected Warden for the year 1884. Carried.

Mr. Pollock in suitable terms returned thanks for the honor conferred upon him.

The council proceeded to consider the appointment of a clerk and treasurer and other business, but after conferring in the matter it was deemed expedient to adjourn to allow the municipalities of Arthur and Medora opportunity to each appoint a deputy-reeve according to statute.

The question of the best and most central place of meeting being taken into consideration, Mr. Graham, of Manchester, situated in the exact centre of the county, rose to place the ball over his store at the disposal of the Council, whereupon Downe and Atttridge moved that this Council do now adjourn to meet on Monday, 19th ult., at Mr. Graham's, Manchester, at 10 o'clock a. m.

The Council met pursuant to adjournment over Mr. Graham's store.

Present, Warden Pollock and Reeves Downe and Atttridge, and Deputy-Reeve A. Snyder.

On motion of Downe and Atttridge J. L. Webster was appointed Secretary pro tem.

Five applications were presented to the Council for the position of Clerk-Treasurer.

Downe and Snyder—That a memorial be presented to the Lieut.-Gov.

praying for the postponement of the county seat and the erection of any

public buildings that can be dis-

persed with, on account of the un-

settled state of railway matters, and

consequently the doubtful question

as to where the business centre will

eventually be. Carried.

Atttridge and Snyder—That J. Downe be appointed to draft a petition to be presented to the Legislative Assembly, praying for the grant of a subsidy to assist in running the ferry on the Souris River on the boundary line, trail crossing, to be signed by the Warden and Clerk and forwarded to the M. P. P. of this constituency. Carried.

# THE BRANDON WEEKLY MAIL.

Brandon Weekly Mail.

THURSDAY, MARCH 6, 1884.

## THE REASONS WHY.

The Winnipeg Sun is nothing if not peculiar, to say the least of it. In a recent issue it copies the following extracts from the programme of the Farmers' Union, and then makes the bold assertion, "Let Capt. Scott, the Times, or any others, so fond of casting discredit on the F. U., attempt to show that is asking anything unreasonable, or anything that might not properly be conceded.

"1. The right of the Local Government to charter railways anywhere in Manitoba free from interference.

"3. That the duty on agricultural implements and building materials be removed, and the customs tariff on articles entering into daily consumption be greatly modified in the interests of the people of this Province and the Northwest."

In the first place Manitoba accepted added territory east and west, after the contract with the C. P. R. had been entered into. Granting then, that the fifteen-mile restriction was not intended to be applied to Manitoba at the time, it applies, common sense will show, to the territory added since the contract was made. The demand to charter railways anywhere in Manitoba is, therefore, asking a right the Union itself knows it has no claim on. The added territory must be excluded when the right to charter within 15 miles of the boundary is asked for. Even a Grit ought to be able to understand this.

Again while there are good grounds for advocating the abolition of duty on lumber, there are no grounds, Dominion or otherwise, for advocating the entire removal of duties on agricultural implements; a reduction could properly be made, and allow the manufacturers fair protection, but a removal never. But the joke of the thing is asking for a modification of the tariff in other respects "in the interests of the people of this Province." We readily admit that from a Federal point of view the tariff might be revised with beneficial effects to the whole community; but why Manitoba possesses such blue blood as to entitle it to an exceptional treatment that would entail an entire reconstruction of the whole legislation of the country, for our part, we cannot understand. The Grits of this country have all along held up the large revenues of this Province as an argument for an increased subsidy, but it has remained for the Farmers' Union, backed up such pseudo patriots as the Winnipeg Sun, to prove that Manitoba, while entitled to the increased subsidy, is also entitled to an entire release from the tariff upon whose contributions our claims for increased subsidy are based. No one ever in the history of Responsible Government saw the like of this before. It Manitoba is entitled to increased subsidy on the ground of her growing revenues, as we contend she is, she is not certainly entitled to the removal of the tariff upon which this increased subsidy is to be based.

## THE NATIONAL TARIFF.

The Winnipeg Free Press says: "Capital certainly will never flow into Manitoba till the monopoly be abolished, and the protective features of the tariff be removed." If there is anything in the adage that "history repeats itself," as we think there is, the F. P.'s logic has not a leg to stand on. The history of the United States proves that until a protective tariff was adopted in that country, its capital was very limited indeed, and we venture the assertion that more money has been invested in manufacturing in Canada since 1878 than there was in the 12 years next preceding that date. But we might bring our illustration nearer home. If the Free Press takes the trouble to enquire, it will find that one-fourth of the population of Winnipeg are

spending for a living on the C.P.R. workshops, the Vulcan foundry and other industries in the place that would never have been in existence but for the fostering tariff it so soundly abuses. We readily admit that without the tariff farmers would get their implements about twenty per cent. cheaper than they do, but the \$15,000 paid by the Manitoba farmers is but a drop in the bucket compared with the amount of money the Winnipeg industries alloted to expend in the city of Winnipeg alone. This continual harping on the disadvantages of the tariff from a Provincial point of view is one of the most short sighted policies it is possible for a journalist to adopt. Every man of common sense knows it is impossible to retain a federation of the Provinces with a dissimilarity of tariff, and still there are journals who claim to support the former blindly advocating the latter. All of the Western States of America could to-day import many lines of manufactures produced in the Eastern States, much cheaper from England and other eastern countries, via the Pacific ocean, than they can get them at home, and still they are forced to pay the extra prices under a uniform law so essential for the existence of the American Union, and we hear but little of that belligerent language unseemly from Gritism in Manitoba. The Dominion as a whole is in favor of the tariff, and by popular vote, it has supported it on two different occasions. Is it then the Free Trade minority of Manitoba that are to rule the destinies of this country? Fair play and common sense would suggest that when a special feature of the tariff bears more than uniformly severe on a section of the people, as does the implement tariff on the farmers of Manitoba, the latter should have a set off in other directions—a rebate, for instance, or an increase of subsidy—but the philosophy of the Manitoba Grit press hankers after both. We would like very much for the fun of the thing, to see a tariff blocked out by the Grits of Manitoba as applicable to the Dominion of Canada. Many and many a Grit of the Manitoba agitators when residents of Ontario in 1878 voted against the Grit tariff and in favor of the N. P., because they knew it would be serviceable to that Province, as it was; but because they have changed residences and look on this tariff question from a purely selfish point of view, they must not think the Dominion Government is in duty bound to follow them in their vagaries. We would like to see some of these grumblers block out a tariff suitable for all interests of the Dominion, with severity on none, and more particularly the machinery they would employ to it force into practical operation. Come, gentlemen, give us an illustration.

## NEVER SATISFIED.

It is amusing, if not refreshing, to see the way in which the Grit sheets are receiving the announcement of Better Terms, the text of which we give elsewhere. The local evening organ, in its issue of Tuesday, referring to the increased terms says, "Such concessions are an insult. We ask for relief from our tariff burdens and they are increased. We ask for control of our school lands as a vital necessity, and they are flatly refused. We ask to have the hated railway monopoly abolished, and Sir Charles Tupper is put up to tell us that—well, he doesn't know, but if, that is, should the C. P. R. not object—you see, if—er—er—if things go on nicely for a couple of years, the monopoly may be dropped, but he is not sure. We ask for the extension of our northern boundary and we are told plainly we cannot have it."

Such and similar utterances in word and spirit show that it little matters to the organ what is conceded. This is of secondary importance with it, for the leading Grit organ of the Northwest has declared the no-party cry a humbug, and the

only way to secure a panacea is to out the present Ottawa Ministry! It is after all not better terms for the Province that the organ has been clamoring for, but power and pelt. There can be no doubt of it in the light of its own admissions. Our rulers most bear in mind that these concessions have been made to a demand presented to the Ottawa Government by our Local Government through Premier Norquay. Some of the most noisy agitators here are now triumphantly pointing to the Farmers' Union, and they are claiming the credit. It is satisfactory to know that there is even now a dispute as to who is entitled to the credit, for it is an admission that the Ottawa Government have conceded something worth having.

It is, however, difficult for us to give the credit to the Union, since Mr. Purvis, himself, one of the delegates and the Secretary, admitted before the public meeting last week that they had accomplished nothing. The MAIL accepts the terms with more than thanks. True it is not all that has been asked for, but the terms are doubtless all that the Cabinet, acting for the whole Dominion, could give. It is the duty of our people to accept these terms with a good will, and show that they are not actuated by a mischievous spirit towards the Dominion, of which the Province comprises no unimportant part. There is nothing to prevent our Local Legislature from being hereafter composed of the right representative material from all parts of the Province, which will press with becoming firmness, and in a becoming way, shoe additional claims which are within reason and consistent with our position as a Province of the Dominion. Let our people now turn their attention to the local matters which are entirely under their control, and for the deplorable state of which the Federal authority is in no way responsible. Let us see what can be done in the matter of reforming and re-constructing our Local Legislature. These are matters within their power. LET THEM PROCEED IN THIS DIRECTION NOW by proving the success of local and municipal legislation. Hitherto there have been practical failures, and the people have themselves and themselves only to blame for it.

THE Winnipeg Free Press is giving daily discourses on the meaning of secession. We'll bet our best beaver that if ex-Mayor Winter was engaged for a month to edit the F. F. its readers would learn more about the subject in a month than they will during their natural lives under any other tuition.

Now that the time is opportune for Brandon to make an effort to secure the union of the Souris and Rocky Mountain and the Brandon and Rapid City R. R. schemes, we think our city Council should appoint a committee to open correspondence on the subject. Recent reports from Ottawa show that such a fusion can be effected if the proper effort be made, and we trust the opportunity will not be allowed to slip by unimproved. A day now may mean many years in the future. The railway system of the country is now being located, and when it once becomes settled, the trade of the country will be developed accordingly. With the Souris and Rocky Mountain scheme terminating on the C. P. R. to the east of this place, a trade must naturally pass that way, which coming through Brandon would mean considerable to all classes of the community; and with that accomplished the incentives to push on the Brandon-Southern would become intensified, and both would centre a considerable wholesale and jobbing trade in the city. There are those of our readers who contend that with railways from the city local centres will be built up to do the trade of their localities, and in this view we readily concur. But if these centres be built on lines passing our door, then will the results prove disastrous as the more extensive trading resulting from the growth of these places passes the city to build up centres

elsewhere. A railway cannot strike a place without bringing a certain trade, and when striking a point of the importance of Brandon it means creating it a centre for the trade of the points surrounding. The course for the City Council to pursue is to enter at once into correspondence with the authorities of both schemes from which their meaning intentions and requirements can be readily ascertained—a delay may prove dangerous.

MANY of the ratepayers of the Province are complaining grievously against the demands of schedule "C," with which assessors are flooding the country at the present time, and it is but little wonder. It is not so much against an outline of their effects the ratepayers so much complain as against the "detective service" it is intended to render. Were the assessment laws of this country similar to those of Ontario, which allowed the ratepayer a reduction on personal property for liabilities again, still we could see some merit in the schedule; but when this is not the case, and when there is no memorandum taken on the assessment rolls of much of the information furnished or sought to be furnished, by this schedule, it does seem to be unnecessary labor forced upon the ratepayers for some foreign if not useless purpose. We venture to say that not more than one ratepayer out of every fifty can be got to understand themissive, much less have it filled, and sworn to on the visit of the assessor. Taking all things into account, our municipal machinery is getting to be a nuisance in the country. With a municipal Council, clerk, treasurer and all the other offices found in the best settled parts of Ontario in many municipalities with less than 50 ratepayers, and the attractions of schedule C to boot the bargain, the ratepayers of this country must conclude they are especially blessed.

THE Grit Government of Ontario have stuck to it till they have capped the climax with school book legislation. All along the school book business of Ontario, and of Manitoba as well, because we have adopted the Ontario educational usages, has been found to be a nuisance, detrimental to dealers, parents, pupils and teachers because of its liability to change. As soon as one series of books would get fairly into use a change would be made inflicting considerable loss on dealers and parents, and unlimited annoyance to teachers, and now the Ontario Government have authorized two series of readers that the joy of all concerned may be thoroughly full. The upshot of this will be that all dealers will have to carry stocks of both readers, and children going from school to school will have to be constantly purchasing to fall in with the classes they enter. The proper course for the Government to have pursued was either purchase the copyright of one series and publish themselves, or after purchasing leave the publication in the hands of any who choose to take it up. This would have ensured uniformity and placed the business beyond the reach of monopoly. The result of the double barrelled arrangement will be that the publishers of both series will now enter into an internecine war, dividing the country by counties, the one having a monopoly in some and the other the entire field in others, and the general public will be the losers. As costly as the school book trade of this country may be at present, the second authorization can have but little influence in the way of reduction. In a limited field like Manitoba, but one set will, of course be authorized, and when the publisher of the fortunate one becomes aware of the fact he will fix his own prices in this country, and the public will have to bear the consequences.

DANDY French was up on another charge for promiscuous revolver practice, and she was fined \$30, or three months in jail.

Every applicant shall, with his application, deposit a sum of Ten Dollars (\$10) to cover expenses of inspection and advertising.

By Order of the Board.

LAWRENCE BUCHAN,

Chief Inspector.

Feb. 2nd, 1884.

CLERK COMMUNICATED.

The regular meeting of the city Council was held at the city hall on Monday last. The Mayor, Alds. Moore, Parsons, Cameron, Johnston, Adams, Sifton, and Larkin. The minutes of the last regular meeting were read and approved.

COMMUNICATIONS.

From J. W. Stewart, of section 27, concerning of excessive assessment, proposing that his taxes be reduced from \$25.23 to \$80.

From D. H. Cooper, calling the attention of the Council to the case of Mr. Winter, a new sick and destitute of a home, at the Star and Garter, and requiring redress.

From W. Barr, secy-treas. Brandon and district, requesting the Council to levy the sum of \$9,000 for public purposes.

From the city solicitor, redispersing with the services of the present city chamberlain. The committee stated in effect that the city would be bound to Mr. Winter for three months' salary in case Mr. Winter did not get another situation, and in the event of his doing so, the city would be obliged to pay the difference (if any) between what new salary he got and what he was receiving from the city.

From L. M. Fortier, Police Magistrate, asking for one month's leave of absence for the purpose of going to Oregon on private business.

REGARDING COMMUNICATIONS.

The communication from D. H. Cooper was referred to the Board of Health.

In reference to the communication of W. Barr, Ald. Sifton suggested that it be sent back to have the amount made less. The Mayor said it was none of the Council's business if the amount was \$15,000. The communication was voted.

The communication of the city council was allowed to stand, and came up under the heading of motions.

In reference to the communication of L. M. Fortier, Ald. Moore asked if he intended to furnish a substitute. The Mayor said he supposed there would be a chance for some of the Aldermen—perhaps for Alderman Dast.

A communication from M. Garrison, which had been overlooked, was read. It asked for the erection of a water closet in rear of the Registry office. Ordered filed.

Report No. 2 Board of Works was submitted.

Ald. Larkin here enquired when the committees were called at a certain hour, they should not meet at that hour, and that if there was no quorum the hour was fit for those members who came afterwards to meet and go on with the business. The Mayor said the by-law covered the case.

The report recommended that the following amounts be passed:

J. D. Bowley, Registry office \$300.00  
J. A. Christie, lumber..... 17.28

The Mayor asked where the lumber was.

Ald. Cameron said in front of registry office and stable.

On motion of Ald. Cameron the report was adopted.

Ald. Larkin said he would like to know if there was any fixed time for the meeting of committees. He was in the clerk's office that afternoon, but as there was no quorum at that time he had left. He understood that the committee had afterwards met. He considered that this was no fit to the members who were present.

The Mayor said that by-law number 92 would cover the case, but on the 1st at the by-law it did not fully do so.

Ald. Cameron explained that it would be late when some of the committees met, but having a quorum he could go on with the business. The Mayor said that there was one member of the rules which he would not meet. When the hour arrived he could call the roll, and if there was no quorum declare such.

INQUIRIES.

The Mayor stated that a man named Hanson who had come in from the west was in destitute circumstances, and that he (the Mayor) had given two blankets for him, and the courts would do for jail purposes.

Ald. Durst said he understood that the council of the municipality of Brandon wanted the council room for their meetings. They would do so every two weeks.

The Mayor suggested a motion.

Ald. Adams enquired about a bill of J. A. Caulfield for meals supplied the press association when here.

Ald. Sifton suggested that it be voted. He thought that the account had been paid. He thought that

hereafter all accounts should be filed.

The Mayor requested the clerk to search the books and see if the account had been paid.

Ald. Larkin enquired what action had been taken in the matter of dispensing with the services of an extra man.

Ald. Durst said he understood that the matter was settled at the last meeting.

Ald. Adams said the resolution provided that one man should be caretaker and teamster.

Ald. Moore inquired about the debentures.

The Mayor said that there was a party inquiring, and he (the Mayor) had been asked what the city would take. He had said to the party that it was the party's business to make an offer.

Ald. Larkin said that schedule C the assessment was giving rise to a great deal of dissatisfaction. He suggested that the assessor be instructed to enforce the same.

A communication from Mr. James Hannam was here read offering to take another \$500 debenture for \$500.

The Mayor also read a telegram and a communication from Capt. W. H. Nash, mayor of Emerson, re Hudson Bay convention there, and asking that Brandon send two delegates to attend the convention there. No one was appointed to go, and the Mayor said any one who chose to go on their own account might do so.

Moore—Adams—That the assessor be instructed not to enforce printed clause in schedule C in reference to personal property.

The Mayor suggested that the motion be amended so as to read, "that the matter of the assessment which applies to personal property be referred to the finance committee with power to act."

Sifton and Cameron accordingly moved that the clerk be authorized to draft and forward a memorial to the local government, praying that the act be amended in respect thereof.

Sifton—Adams—that the offer of Mr. Hannam for one debenture at 98 be accepted, and that the clerk inform him of the fact. Carried.

Cameron—Lee—That L. M. Fortier have 30 days leave of absence. Carried.

Cameron—Sifton—That the balance due W. D. Matheson on cemetery ground be passed.

The Mayor said that there was something in connection with the title that would have to be looked into.

Adams—Lee—In amendment that the matter be referred to the finance committee to report on at the next meeting. Carried.

Johnston—Larkin—That the services of the teamster be dispensed with, he to receive one month's notice from the 5th inst.

Durst—Sifton—That the Council room be granted to the municipality of Cornwallis until the 31st December for four dollars per meeting. Carried.

Ald. Larkin submitted a motion to make the meetings of the Council tri-monthly instead of weekly. The Mayor stated that it would be necessary to bring in a by-law and that he had better give notice.

Ald. Larkin gave notice.

Larkin—Johnston—That the services of Thomas Winter as city chamberlain be dispensed with after giving him three months notice from date. Carried.

BY-LAW.

By-law No. 92 to amend by-law No. 85 to appoint certain officers of the city, and fix their salaries was submitted and passed through under a suspension of the rules.

A by-law empowering the Mayor and clerk to rig certain promissory notes was also passed through its various stages. It was numbered by-law No. 93, and provided for the payment of the following:

F G D. Henderson..... \$233.33  
J D. Bowley..... 300.00  
A R. Crawford..... 166.66  
D C. Campbell..... 120.00

The Mayor stated that the recent capture of thieves by the police had saved to the merchants of the city more than the salaries of two officers.

An application was made by the assessor for some blank schedules, but the matter was left over until next meeting.

The council then adjourned.

ANOTHER raid was made last night on the unfortunate. Four of these were scooped in. Nelson, for keeping a house of ill fame, was fined \$13.50, and Lewis, an inmate, \$23.50. The case of Robinson, on a similar charge as Nelson, and that of Elgin for being an inmate, will come off to-day.

### TOWN TOPICS

THURSDAY, MARCH 6, 1884.

Dr. Spencer has commenced his duties as jail surgeon.

The Hon. Mr. Sifton will return from Louisville in a few days.

Mr. McDonald, of Alexander, is sowing 600 acres of wheat this spring.

Rev. Barnett and Councillor Naismith, of Millford, were in the city Monday.

The case of L. M. Fortier vs. Fishers or comes off in the superior court at Ottawa next week.

Nearly every day some building from the east end is being moved west. The march of progress is westward.

The Government architect expresses himself as highly satisfied with the construction of the Government building.

The attendance at the convent is so large that the authorities are talking of increasing their educational facilities.

The requirements of the school board for the present year are \$15,000, and the council will be asked to raise \$3,000.

We were sorry to learn that Mr. and Mrs. Frank Tomlyn had the misfortune to lose their infant child suddenly last week.

CALLANDER & Reid, of Millford, are buying oats for shipment in the spring, for which the surrounding farmers are very thankful.

Mr. Whitehead, of Whitehead & Whitslaw, returned on Saturday from his extended trip in Ontario, feeling none the worse for his journey.

Mr. Hannam entered upon his duties as jail warden on Monday last, taking charge of ten prisoners, from the fire hall cells to commence with.

CAMERON & Cumming are a buffalo overcoat ahead by the capture of Smith at Eagle River. He had the animal's vesture on at the time he was arrested.

MESSRS. Brown & McElvie, the late popular proprietors of the Royal Hotel, have assumed the management of the Brandon House, which they are certain to bring to the front.

Mr. Wade, Department Minister of Public Works, Mr. Wickenden architect, and Mayor Daly inspected the new jail on Friday last. It will shortly become the home of western law breakers.

The School board justifies Mr. Bartle's secretary, in a rather sharp letter, he wrote the city Council on the 7th January, and it at the same time censures the Sun for its editorial structures and his official conduct.

Thus Connell, C. P. R. section foreman at Elk Horn, died on Saturday last, and his remains were interred under the tombs of the Odd Fellows, the Brandon Lodge taking charge of the ceremonies.

The Local Legislature is to meet on the 13th.

Mr. Sword, of the firm of Sword & Moore, went to St. Catharines on Saturday last. He will not have it said his mission is an interesting one; because, as he alleges, taking an annual trip to that city all of his visits cannot be interesting.

We were in error the other day in saying that Mr. Sharp expressed was called out by Mr. Caldwell. It appears the bail of an attorney will not be accepted for the client. What Mr. C. did do was secure his release in an examination before the judge.

T. BAUMER and D. M. Nutt narrowly escaped getting a severe scalding at the Star and Garter Hotel on Monday. The heater on the stove near which they were sitting upset, but fortunately they received but little of its contents.

The Agricultural Society have raised \$1,500 towards the \$2,500 necessary for the purchase of the Pencheron house, and the president, Mr. Waithehead, starts on his purchasing trip Thursday next. They are determined to secure the best animal to be had.

The weather continues clear and sunny, with heavy winds from the Northwest. The month has undoubtedly come in like a lion, which shows that there is a reasonable prospect of it going out like Mary's little lamb as shown.

Mr. Atley, of Elton, sold a load of grain to Ogivine on Wednesday for 70 cents, and on Friday he brought another load of the same grain and was offered but 55 by the same buyer. Thinking there was something wrong, he refused the offer, and drove his load to the St. Lawrence Hall, where he found a friend whom he asked to try his hand with the buyer. The friend drove it round again, and was offered 60 cents by the man who would give but 55 a few minutes before. Evidently there is considerable doigering if nothing worse in this when buying business.

We understand Mr. Fortier, Police Magistrate, has undertaken the editorial work of a local paper, and this is scarcely the thing. Mr. Fortier is a judge to all intents and purposes, and he should engage in no business while he holds that position, that would lead the public to suppose there was any tinge of a party nature tending to influence his decisions. We know that he would not be permitted to hold the two positions at the same time in any other province, as we feel confident he cannot, conceivably do it in this. No, Mr. Fortier must abdicate one or other of the two occupations, and, of course, he is at liberty to take his choice.

THE Venerable Archdeacon Pilkington has returned from a very successful trip to Furth Mountain. The Archdeacon conducted divine service and administered holy communion at Wakopa on Sunday morning. The offering taken up was in aid of the Home Mission fund of the Church of England. He also took the service at the Albion school, 12 miles from Wakopa. At this service there was a very large attendance, the school house being literally packed. After holding service he travelled in a cutter a distance of 152 miles, 42 of which he drove on Monday in order to catch the train from Brandon. The Archdeacon states that the Rev. G. Atkins is the only clergyman of the church of England in that part of the country, and his mission embraces four municipalities viz: Deloraine, Turtle Mountain, Riverside and Whitewater. The diocesan board contemplate the organization of another mission in that part of the west as soon as possible.

SMITH, brought in from Eagle River as the fourth of the Charter gang, has been sentenced to eight months' jail; Gray, the fifth, brought down from Medicine Hat, gets thirteen; and McNulty is out on bail. In a private letter dated Earnest, Ottawa, February 25th, written to a gentleman here, Sir John A. McDonald says: "It is lamentable to see the state of excitement that the people in Manitoba have worked up. This, I hope, will be transient, and when the spring opens the prospect of a good crop will divert public attention from brooding over the losses of last year to active work. Of course, there will be professional agitators who will continue to agitate, but I doubt not that the second thought of the people will put that sort of thing down. \* \* \* We are pushing the Bill in aid of the Canadian Pacific Railway as much as we can, and hope that in two years more Manitoba will have two means of transport for its products—one all rail route via the north of Lake Superior, and the other by Port Arthur." We would suggest the president and the treasurer of the Union here to the above quoted extract.

The case of McNulty, for complicity in the Charter gang thieving, was adjourned until to-morrow.

The Council of the municipality of Cornwallis was in session yesterday at the City Hall. The Council had a night session.

REV. FATHER DUGAAT, of St. Boniface, arrived here on Tuesday. He is the guest of the Rev. Father Routhier.

The main building of Brock's photographic establishment is now being removed to Rosser Avenue. It makes a pretty good sleigh load.

The case of Carlson vs. Voshburg came up before the Police Magistrate Tuesday morning, and it was dismissed with costs against the plaintiff.

The evening paper is authority for the statement that the Snow Shoe Club had a brawling tramp Tuesday night. Some one wants to know what they did with him. Mr. Bliss ought to see to him.

The funeral of the late Thomas Conner took place yesterday, to follow the removal of the team from the west. The remains were met at the station by the Odd Fellows, who conducted the body to the cemetery. The funeral was to give a bended.

The daily newspaper of last evening has a long telegram from its own reporter. We are informed that the determination is quiet and full of meaning. This is important, no doubt especially by tranquility. The determination to be quiet is a good one; there is nothing like succumbing to the inevitable.

The sheet and pillow case carnival at the skating rink on Tuesday night was in all respects a success. The affair was quite novel. The efficient band under the leadership of Capt. Atherton was there, and added greatly to the success of the entertainment.

Our efficient officers of police made an official visit to the maison de plaisir, at the east end, and with their drag nets scooped in the proprietress of the establishment. This lady is known by the sobriquet of Danny French, Bela La Roche, Walter Mitchell and Charles Burnside, were also taken in the meshes. The boss boy was fined \$13.50, and 30 days hard labor, or in default of payment, 60 days in jail. Bela La Roche, \$2.50 or 40 days. Walter Mitchell, \$13.50 or 30 days. Charles Burnside \$13.50 or 30 days. Information was given and against Dandy French for carrying a revolver.

COMPLAINT has been made to us of the severity of the punishment of the women who were brought up in the Police Court the other day. We have no sickly sentimentalism in such matters, but it seems to us there is no provision in the law by which imprisonment with hard labor can be supplemented to a fine in such cases at all. As we are not fully acquainted with all the facts and circumstances of the case in question, we must refrain at present from further comment, but we will make it our business to enquire fully into the matter, and report our investigation next week.

OUR resented evening contemporary has joined the crusade against Sciolte C. That unfortunate blank catches it in one of the characteristic editorials. The Assessment Act catches it generally also. We are glad to see that our contemporary is giving some attention to local requirements. Too much political astronomy does not pay these tides. There is nothing like a little frontier philosophy occasionally. It is much better in times of depression than a rhetorical bombardment of something that cannot be hit.—something that is quite out of range of the litigious gunner, as it were.

Mr. Millard Colling who had been on a trip to the Turtle Mountain returned last evening. We learn from him that a man named Mitchell living near Deloraine, met with a very severe and painful accident about a week ago. He was entering his house with an axe in his hand, when he slipped, the axe cutting one finger off, and laying open his hand.

On Tuesday evening, somewhere about eight o'clock, a horse and cutter, navigated by two or three men, drove with tremendous velocity eastward along Rosser Avenue, to the terror of passers by. We have been informed that the cutter was occupied by the police, and that they were going to make a second raid on the cottage at the east end. We are not sure of the correctness of the information, and therefore we do not vouch for it. Whoever it was, the lightning-express-down-an-icing-speed which was adopted was justifiable if it were officers only in extreme cases. If it was not officers the various "reckless" was not justifiable at all. The city should keep up its dignity in this matter.

as well as it is now doing in putting down the social evil.

### We Wanted Something New.

A cigarette smoking scion of one of the first families on the West side came into this office, yesterday to request that a notice of his coming nuptials might be inserted in the paper.

Don't say however, said the young man, earnestly, "that I am about to lead to the hymenial altar the beauti and accomplished daughter of Mr. S. and S.," because that kind of slush is too old; and then again, it's leap year. Better make it read that I've consented to be her'n."

He was assured that it would be done and left.—Ex.

### The Lost Fly.

The following story is told of an Eighth Avenue grocer, celebrated for the size of his hands and feet. He was waiting upon a fat German woman the other day, and among the purchases made by the customer was a cornish. After making numerous purchases, the woman prepared to leave the store, but got no further than the door when she found that her cornish was missing. Search was made for it everywhere, but without success; the fat and goodnatured grocer was telling his anxious customer that possibly some one had stolen her property, when he lifted his hand from the counter. The woman stepped forward and cried out: "Dash me me me fish," at the same time pointing to the place on the counter where the grocer's hand had rested. Sure enough, there lay her purchase.—New York Tribune.

### BRANDON HILLS.

#### LAKE CLEMENTS.

Mr. Young, assessor for the southern part of the municipality of Cornwallis, is making a most efficient public officer.

Bachelor hall surprises are the general topic of conversation in this locality just now. Come along, ladies, and do not forget that February has twenty-nine days this year. K. B. C. will be glad to see the ladies call. A number of Bachelors here are ready and willing to enter into matrimony.

Quite an enthusiastic meeting was held lately at the Lake Clements Hotel for the purpose of forming a local musical association, and to be known as the "Lake Clements Amateurs." A committee was appointed to call upon the gentlemen in the vicinity, have reported that they met with great success, and every assistance is fully promised.

### The Philadelphia Fires.

PHILADELPHIA, March 1.—The loss by the destruction of Powers & Wrightman's chemical works will be \$1,000,000. The chemical seemed to burn with such extraordinary fierceness, and the fire was evidently spreading so rapidly, that the residents of the neighborhood left their houses under the impression that a terrible explosion was liable to occur at any moment. It was difficult to calm them and influence them not to risk the lives of their children by exposing them on such a night. At this time the entire square seemed to be a vast sheet of flame, and soon after three explosions of fuel oil occurred. The burning fluid ran through the streets, and firemen called upon the citizens to help rescue the engines and the hose carriages from the river of blazing oil. The oil soon burned itself out, but the flames had spread across the alley-way to the five story brick building stored with a large quantity of combustible materials, the building with all its contents, was entirely destroyed. Up to 5 o'clock the flames steadily triumphed over all opposition, lighting up the entire city, while the neighboring streets were blocked with panic-stricken residents removing their goods to places of safety from the fire.

### WHITEWATER.

The ball held at Mr. Gibson's last Thursday night was an unqualified success in every way. The attendance was large, and among those present were a number from a distance. The music was the best ever heard in this district, and the supper which was prepared by Mrs. Gibson, was just excellent. The committee who were entrusted with the management deserve great praise for the manner in which every detail was carried out. Their names are J. Romberg, John McKellar, John Cole, A. Knott, and S. Bontler. A recitation was given by Mr. John McKellar, which was heartily ap-

plauded. Mac bids fair to become one of the great orators of Manitoba. The songs sung by Miss McGuire and Miss Whiteman were also loudly applauded. The dancing was continued till early in the morning, when the company dispersed for their respective homes, feeling that they had spent a most delightful evening.

### THE CONCESSIONS.

The following is the text of the terms granted to this Province, in answer to the demands presented by the Local Government through Premier Norquay:

1. The odd numbered sections of the public lands in the Province will be handed over to the Local Government.

2. The subsidy to the Province will be increased.

3. Every effort will be made to push the construction of the Hudson Bay Railway.

Hon. Mr. Norquay's demand for the extension of the boundaries north and west will not be agreed to, nor will the school lands or the even numbered sections of the public lands be handed over.

The increase of the subsidy will hereafter be made every five years, and on each fifth year the estimation of the subsidy will be based on the estimate of the increased population for two and a half years ahead. The Government have given final notice to the different Hudson Bay Railway Companies, who are squabbling among themselves as to the composition of the directorate, in case of amalgamation that they must amalgamate at once, or the Government will make its choice of the company it considers best able to undertake the work, and treat with it. A subsidy of 12,800 acres of land per mile will be given to the company, who will be required to push its construction with all possible speed.
